

TRI-CLEAN SUPER

Water-Soluble Cleaner/Degreaser

DESCRIPTION

Tri-Clean Super is a powerful, all-purpose, biodegradable emulsifier that releases instantaneous chemical action which rapidly penetrates grease, oils, grime, and dirt, and contains Tri-Chem's exclusive Rust Inhibitor. Tri-Clean Super can be used in parts washers, automatic floor scrubbers, power washers, steam cleaning machines, mop and buckets, or trigger sprayers to clean parts, floors, walls, equipment, machines, etc.

FEATURES

- Super concentrated
- Non-flammable
- Biodegradable
- Non-Acidic
- Non-Abrasive
- Non-Caustic
- Safe and effective
- Will etch glass if left undiluted

HOW TO USE

Dilute with 20-30 parts of water for general industrial cleaning and degreasing.
Dilute with up to 80 parts in floor scrubbers, steam cleaners and power washers.

SPECIFICATIONS

Physical Form	Liquid
Color	Clear/Purple
Odor	Sweetish
Specific Gravity	1.05
Flash Point (TCC)	Concentrate: 13.2
pH	10 to 1 dilution: 12.0
